

Season 2 | 12 June 2024 | 11AM – 3PM

CAMBRIDGE WIDE OPEN DAY

Explore the city's world-class science & tech,
meet the people, see the facilities on the front
line of innovation, all in one day!

WELCOME...

Join us!

“

Cambridge, UK has emerged as one of the hottest life-science/tech/green clusters in the world and is attracting interest from inside Cambridge and around the UK/world. The culture of the ecosystem is as generous, vibrant and as collaborative as ever. One can feel the electricity at every meeting and event. All the conversations and data show Cambridge is alive and bursting with ideas to address global issues, funding, IP, exciting companies and new facilities.

The Cambridge Wide Open Day is a first-of-a-kind opportunity to see, learn and engage with the Cambridge ecosystem in one day. Whether you are an investor from out of town, work inside/outside the innovation sector or a nearby resident to the science/tech that happens in your community. We look forward to you joining us for Season 2 and being inspired by the range of workshops, masterclasses, tours, debates, talks, roundtables, demos, pitches and more on offer. Lastly, I would like to thank the steering committee, the venues, contributors, and the organising team for their generous community spirit in making this an exciting community ecosystem adventure.

TESTIMONIALS

The Cambridge Wide Open Day is going to be an important event in the history of Cambridgeshire. Science parks are a critical component of Cambridge and therefore it is vital to nurture this ecosystem.

Dr Nik Johnson

Mayor of Cambridgeshire and Peterborough

Congratulations to Prashant Shah for initiating the Cambridge Wide Open Day, a great new addition to the Cambridge Cluster Ecosystem. I wish it every success.

Dr Hermann Hauser

Amadeus Capital Partners

Behind closed doors the toughest challenges on human health are being tackled from defeating aging to curing disease using some of the most amazing kit and techniques. This day is an opportunity to open those doors and share what is happening.

Kristin-Anne Rutter

Cambridge University Health Partners and CBC Ltd

We had about 70 people turning up from the local community which was a really nice piece of engagement. It is something we may do time to time but the wider Cambridge coverage that Cambridge Wide Open Day enabled really brought it to another dimension. Really well done to you and the team.

Aline Charpentier

Bruntwood SciTech

Creasallis prides itself at being part of the Babraham and wider Cambridge community of scientists and businesses. Having a Cambridge Wide Open day such as this really allows us all to connect together, but allows others to see what a truly special place Cambridge is.
